Hero

(Whispered) Let me be your hero

Would you dance if I asked you to dance?

Would you run and _____ .

Would you cry if you saw me crying

Would you save _____ .

Would you tremble if I touched your lips?

_____ Oh please tell me these

Now would you die for the one you love?

Hold me in _____ .

(Chorus)

I can be your _____

I can kiss away the pain

I will stand _____

You can take my breath away

_____ That you'll always be mine?

Would you lie would you run away

Am I in too deep?

Have I _____

I don't care you're here tonight

Chorus

I just want to hold you (2x)

Am I in too deep?

Have I _____

Well I don't care you're here tonight

Chorus (2x)

You can take my breath my breath away

I can be your hero

➡ hero

➡ heroine

➡ heroin

➡ would

- used for offering something (spoken) when making a polite offer of invitation
- used in requests (spoken) politely asking someone to do something or to let you do something

➡ If - Clause

If I were slender, I would attend the beauty contest.

➡ look back = (+ on)

- sb never looked back used for saying that s.o. achieved sth. Special and then became even more successful

➡ She is dying of/from cancer.

➡ They were ready to die for their country.

➡ hold =

to put your arms around s.o. for a long time because you love them or because they are unhappy

➡ kiss away the pain =

stop the pain by kissing

➡ stand by =

to continue to support or help s.o. when they are in a difficult situation

➡ take one's breath away =

overwhelm

astonish

produce sudden emotion

➡ lose your mind to become crazy and start behaving in a strange way

➡ run away =

to secretly leave a place where you should stay, because you are not happy there.

➡ care =

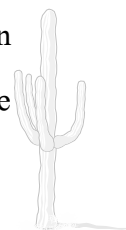

to be interested in sth. And feel strongly that it is important

Lousy skiing and bad apples. That's what Pacific Northwest residents may be able to expect in 80 or so years.

While global warming usually is seen as a fairly simple event - - fewer cold days in the winter, a few more 100-plus-degree days in July --- its regional implications could be far more dramatic. That's what climate researcher Ruby Leung of the Pacific Northwest National Laboratory in Richland, Washington, found when she ran computer models to study the impact of a warmer climate on Oregon and Washington. Her conclusion : Precipitation that now falls in the mountains as snow from late November through late March will turn to rain, raising the average snowline from today's 3,000 feet to 4,100 feet

That will turn now-popular ski resorts in the central Cascade Mountains into miserable aqua-parks. It will cause problems for farmers on the dry east side of the mountains who rely on spring and summer snowmelt to irrigate their apples and wheat. And flooding---now common in November when storms wash ashore ---could be severe throughout the winter.

Directions : Choose the most appropriate answer.

☞ You want your friend to receive your urgent letter as soon as possible. You are not sure about the price so you ask the clerk at the post office, “_____”

1. How much does it cost to send it express?
2. Do I have to put a return address on the envelope?
3. Are you sure that my friend will receive it?
4. When can you take it to him?

☞ When a customer complains that the spoon is dirty, the waiter apologizes and says, “_____”

1. Please don't worry
2. Don't mention it.
3. I'll bring you another one.
4. Why don't you use chopsticks instead?

☞ You ask the owner of a news-stand for the latest issue of your favorite magazine.

He says “_____”

1. They have all disappeared.
2. They are all sold out.
3. Sorry, you can't help it
4. I don't mind.

☞ A secretary is on the phone and wants to know the caller's name so she asks politely, “ _____ , please?”

1. Who do you want to call
2. Who are you
3. Who is saying that

☞ When you sell out (of) sth. you have none of it left to sell:

☞ We sold out of the T-shirts in the first couple of hours.

☞ It now snows _____ in the mountains of Washington and Oregon.

1. more than it used to
2. too little for skiing
3. too heavily to grow apples
4. for about four months

☞ People usually think of global warming as the cause of _____ .

1. longer winters
2. more warm days in July
3. deeper snow in the winter
4. shorter days in July

☞ Ruby Leung conducted a study on the _____

1. causes of global warming on the earth
2. effects of climate change in two states
3. benefits of a warmer climate in the States
4. disadvantages of the global change of seasons

☞ Ruby Leung found out that global warming _____

1. could cause more damage to the Pacific Northwest than expected
2. would be more severe worldwide than predicted
3. would not be as serious as we thought
4. could be less complicated than we realized

☞ One example of precipitation mentioned in the text is _____

- | | |
|-------------|------------|
| 1. snowline | 2. Climate |
| 3. flooding | 4. rain |

☞ It can be concluded from Ruby Leung's study that in the future we will find snow _____

1. in late November
2. until late March
3. below 3,000 feet
4. only above 4,000 feet

☞ In the future, many popular ski resorts in the central Cascade Mountains are likely to _____

1. be covered in deep snow
2. become more crowded
3. be badly flooded
4. become hot and dry
